## Conflict Minerals Reporting

Dear Rutronik Customer,

Thank you for your inquiry requesting information regarding “conflict minerals” content of products supplied by Rutronik.

We are aware of the rule issued by the SEC (The Securities and Exchange Commission) and the reporting requirements. Although we are not required to report to the SEC, we are assisting our customers to the best of our ability in meeting their reporting requirements.

However, as a distributor of a wide range of components, purchased from many manufacturers we are not in a position to provide data on our own or on behalf of the manufacturers. Our role is to provide up-to-date information which is made available to us from our manufacturers. Therefore, we cannot fill in any specific declaration forms. We are collecting conflict minerals statements and/or declarations from our manufacturers. This information can be provided to our customers on request.

Thank you for your understanding.

With best regards

Siegfried Kälber

Head of Service and Quality Management /  
Management Systems Representative
